Modello Designs Decorative Masking Patterns® were used extensively throughout **The Grand Del Mar** resort in San Diego, California. The Mediterranean/Moorish design theme used throughout the resort was accented and enhanced with an assortment of coordinating patterns from our wide-ranging collection. They were custom-fit to fill coffers, panel and cornices with multiple colors of paint, plaster and metal leaf. In addition to the many common areas that were decorated, each of the 300 guest suites was treated to an elegantly painted border pattern. Our decorative masking patterns can allow for both skilled artisan and production style painting, making them an ideal, cost-effective choice for a wide variety of projects, surfaces, and design themes.
