# here comes the sun

SANDLER SEATING LAUNCHES **SUNSET, SUNDANCE AND SUNRISE** FROM TONON'S 'HERE COMES THE SUN' COLLECTION.

Indoor and outdoor: in both areas the 'HERE COMES THE SUN' range can be used with excellent results. It is particularly attractive thanks to its straight lines and its extravagant design. Available in four stock colors and four additional non-stock colors on request. Perfect for spas, swimming pools and cruise ships and suitable for both commercial and residential applications.

The chairs are produced from a rotational molding process using high quality through-colored Polyethylene (PE) one of the most versatile thermoplastic materials. This allows the chairs to be resistant to UV rays, high temperatures, low temperatures, stress, impact and abrasions. PE is aroma free and impervious to humidity, environmentally friendly and **100% recyclable**.
